

REMARKS

Claims 26-28 were rejected under 35 USC 103(a) as being unpatentable over Park et al (US 2002/0155320) in view of Park et al (2003/0218422), Beteille et al (US 20050002081) and McCormick et al (US 6867539). Claims 30-33 were rejected under 35 USC 103(a) as being unpatentable over Park et al '422 in view of Liedenbaum (US 20020074931) and McCormick et al.

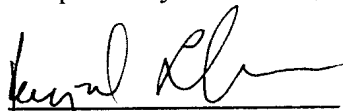

Claim 36 has been renumbered to claim 35 to correct the numeric order as noted by the Examiner and has been amended to depend upon claim 30.

By this amendment claims 27-29, and 31-34 have been cancelled. Claims 26 and 30 have been amended to respectively incorporate the subject matter of claims 29 and 34 which were previously indicated to be allowable. Accordingly, all of the claims now in this application have been indicated to be allowable by the Examiner.

It is believed that these changes now make the claims clear and definite and, if there are any problems with these changes, Applicants' attorney would appreciate a telephone call.

In view of the foregoing, it is believed none of the references, taken singly or in combination, disclose the claimed invention. Accordingly, this application is believed to be in condition for allowance, the notice of which is respectfully requested.

Respectfully submitted,
